## CI-100B

Cash recycling system

reddot design award  
winner 2012

The CI-100B reduces the burden and risk of your back office cash processes. Automated processing of cash accelerates start and end of day processes as well as shift changes, reduces the risk of cash shrinkage, enhances the productivity of your staff and enables provisional credit where available.

Swiss Franc

## As part of our CASHINFINITY™ solution, the CI-100B can be deployed standalone with manual cash drawers or as part of a secure closed cash management solution, accepting cassettes from Glory's CI-10 point of sale recyclers.

### CI-100B

The CI-100B banknote recycler offers improved security and reduced cash handling time in retail applications; during day-open, shift change and day-close operations. CI-100B offers the cashier a quick and easy solution for handling cash in the back office of a retail environment, allowing managers more time to focus on their core business. If the compact cash recycling system CI-10 is added, the CI-10 and CI-100B offer a secure closed cash management solution. In addition, the CI-100B accepts not only the interface cassette of the CI-10 but also loose notes from the manual cash drawer. This unique function provides retailers flexibility and extensibility.

<b>Dimensions (W x D x H)</b>	with monitor (monitor height: 473mm / 18.6") UL-291 24-hours safe: 380 x 835 x 1,573mm (15" x 32.9" x 61.9") CEN III safe: 435 x 907 x 1,591mm (17" x 35.7" x 62.6")
