CI-50B

Banknote recycler

reddot award 2018
winner industrial design

The CI-50B cash recycling solution removes the need for staff to handle banknotes at the point of sale. When integrated into your existing POS system the CI-50B securely automates cash handling at payment positions minimising the risk of errors and shrinkage while enhancing staff productivity and customer service. The addition of the coin unit (CI-10C) integrates coin handling into a single solution, for handling both notes and coins.

As part of our CASHINFINITY™ solution, the CI-50B compact cash recycling system is stylishly designed for easy integration into cash desks and self-checkouts.

CI-50B banknote recycler	
Deposit	Capacity of inlet: 100 notes (with cover opened) 5 notes (with cover closed) Speed: 5 notes/second
