

GLORY WELCOME PACK

Cash Management Solutions

WELCOME TO GLORY

Welcome to GLORY and thank you for trusting us with your business needs, helping you deliver a great service to you customers.

Every opportunity is unique, and we'll work with you to transform your capabilities with minimal disruption to existing services

With over 100 years of experience, we are proud to be the global leaders in cash technology solutions. We are confident that you'll be pleased with your decision to work with us, and we look forward to helping you optimize the way you work.

A trusted global leader

Deployments in multiple segments

300,000+ locations incl. 110,000+ Retail stores

Founded in 1918

100 years' history as cash handling experts

Presence in over 100 countries

Direct sales & service in 20+ countries

Global Market Leader *

2,000,000+ devices supported worldwide

11,000+ employees worldwide

1,200+ Researchers & Industry Experts

Best advanced market leading solutions

7% of our revenue in R&D investment

* Sources: IDC FinTech 2022 / RBR 2023_Retail

GLORY RETAIL & HOSPITALITY

CASHINFINITY™

HOTEL CASH CHALLENGES

Reduce back office tasks

By automating routine cash operations, back office tasks can be reduced almost to zero for cashiers staff and to minutes for management.

Reduce cash errors

Costs of losses due to errors or discrepancies can be cut by close to 100%. It results in an impact on hotel profitability.

Improve staff experience

The Hotel staff is relieved from high-pressure and laborious tasks and can be more engaged with customers.

Optimise CIT costs

Thanks to recycling, the volume of cash deposited to CITs is reduced, as well as the cost of money processing or the cost of note and coin orders.

Reduce in-house idle cash

The 'time-to-value' of the daily sales is made faster. The idle cash is transferred to the bank account, ready to be invested for the future.

Redeploy staff time and attention to guests

CASHINFINITY™ solutions enable Hotels to save time and thus redeploy their staff to activities that improve the guest service and add value to the business.

Improve security and reduce in-house shrinkage

Cash is safely stored with minimum exposure, which means less risk of losses due to robbery or shrinkage.

USER ACCESS (UP TO 6 ROLES) – CASHIER

USER ACCESS (UP TO 6 ROLES) – FINANCE / ADMINISTRATOR

CHEQUES, FX, VOUCHERS AND UNRECOGNISED NOTES

If you have notes that are not accepted by the machine, vouchers or cheques, they need to be entered manually. When placing your deposit click on the detail button at the bottom of the screen.

If it's vouchers, click on the coupon tab and fill in the details.

If the machine will not accept a note, then it will keep rejecting so click on other and type in the details.

The screenshot shows the 'Deposit' screen with a table for recording transactions. The table has two columns: 'Machine' and 'Manual'. The rows are 'Note', 'Coin', 'Other', and 'Total'. The 'Total' row shows 0.00 for both columns.

	Machine	Manual
Note	0.00	0.00
Coin	0.00	0.00
Other		0.00
Total	0.00	0.00

Buttons at the bottom: Cancel, Status, Detail, Coin Count, Finish.

The screenshot shows the 'Deposit - Detail' screen. It has tabs for 'Currency', 'Other', and 'Description'. The 'Other' tab is selected. Below the tabs are 'Item' buttons: 'Credit', 'Cheque', 'Coupon', and 'Other'. There are input fields for 'Count' (value 0) and 'Amount' (value 0.00). Buttons at the bottom: Cancel, Save.

Management Services

For optimum performance

Patch Management

remote updates for Win10 and other SW provide by Glory

Remote firmware/ pattern updates

Maximise device functionality and performance

Data analysis

Enables smarter data-driven decision making based on real-time reporting of your cash

BENEFITS TO MARRIOTT

**Scheduled updates
Automatic deployment**

Glory takes care of the updates. No additional workload for hotel staff

Ensure the latest security patches are installed

Minimize exposure to software attacks and maintain data security compliance

24/7 Remote monitoring by Glory service desk

Ability to remotely recover systems and avoid engineer visits

Control of software level across Four Seasons estate

Consistency of customer service and operations

Visibility of device estate

Automatic reporting of software levels and update history for audit and compliance

Maintain guest services

Glory manages the devices, so Marriott can concentrate on guests

IT REQUIREMENTS – PRE-INSTALLATION

The following requirements are to enable the Glory device to push data out **ONLY** to Evention.

This is not for local members of staff to remotely access Glory CI-Server (locally accessed via Keyboard)

- 1 x physical RJ45 wall socket
- Dedicated port on GUEST LAN (ISM7 maybe required)
- Cash Machine MAC address needs to be whitelisted on the GPNS Guest Network
- DHCP (no Static IP required)

****DO NOT INSTALL ON A PUBLIC ACCESS POINT****

The logo consists of a dark blue square with the word "GLORY" in white, uppercase, sans-serif font centered within it.

EoD reconciliation	120 minutes per day	EoD reconciliation	5 minutes per day
FINANCE MANAGER TIMESAVING: 155 MINUTES PER DAY			

GLORY CUSTOMER CASE STUDIES

THE CUSTOMER

The Sheraton Jumeirah Beach Resort is a five-star beach Resort in Dubai and part of the Marriott International hotel group. Set in the middle of 10,000 square meters of landscaped gardens shaded by palm trees, the hotel features 256 spacious rooms and suites with excellent views, a wide selection of restaurants and leisure facilities including a spa, pool and gym.

THE CHALLENGE

Cash management at the Sheraton was handled manually by the Finance Team. Like many large hotels, it involved the preparation and reconciliation of multiple floats to cover the reception, food and beverage and leisure facilities, as well as the preparation for CIT collections and bank drops.

The Sheraton operates three shifts in each 24-hour period, spending approximately 12 hours per month in cash processing tasks. In addition, the financial reports took approximately 17 hours per week to complete.

"No more cash count breaks – An integrated system aiming at improving the efficiency of cashiering function and internal controls environment. Furthermore aids in the elimination of the redundant manual cash counting process and increases the general cashiers & other operation staff's productivity."

Ali Nair, Director of Finance, Sheraton Jumeirah Beach Resort & Alotn Palm Jumeirah

THE SOLUTION

To improve the cash management processes within the hotel, The Sheraton looked for a solution that could integrate with its POS & PMS Systems and automate time-consuming tasks. It selected the Glory CASHINFINITY back-office recycling device, the CI-100B, that would operate and align with Evention Cash Reconciliation software to create a robust end-to-end solution to streamline both its cash management and financial reporting.

This solution also offered improved security in the back office, with the banknotes being stored within the CI-100B device, as well as automating the counting and authentication of the notes to eliminate errors and discrepancies.

Float preparation, reconciliation and CIT preparation is now automated. A new process for approving petty cash is now in place, giving staff the flexibility and speed to react to day-to-day situations. The solution also generates and posts financial reports, to reduce burden of manual accounting tasks for the finance team.

With the ability to recycle cash, using the CI-100B, the hotel could now drastically reduce CIT visits and reduce its cash holdings on the premises by 38%, bringing significant operational cost savings to the business.

Reconciliation powered by:
EVENTION

THE BENEFITS

The CASHINFINITY back-office solution, combined with the Evention financial software has brought immediate and impactful benefits to the Hotel and its staff. Both the cashiers and Finance Manager can now allocate more of their time to value added tasks, released from the burden of manual cash processing and reporting.

- Cashier hours for cash handling tasks reduced by more than 50% each month
- Finance Team hours to produce reports reduced by 75% each month
- CIT costs reduced by 50%
- Hotel Cash float reduced by 38%, reducing risk and insurance costs
- Speedy petty cash approval process
- Happier staff, relieved of the burden of manual cash counting, to create a less stressful working environment
- Easy to use interface and quick integration means minimum disruption to business to the business

¿Cómo transformó el Hotel The Barcelona EDITION sus procesos de efectivo?

EL RETO

El problema principal era proporcionar cambio a los cajeros. También era esencial reducir las tareas complejas que consumen mucho tiempo, como el tratamiento manual del efectivo, tanto como fuera posible.

Nora Quintana, Directora Financiera, describe cómo la solución de reciclaje de efectivo CI-100 de Glory transformó el flujo del efectivo del hotel y mejoró la productividad del personal.

EXPERIENCIA DEL CLIENTE MEJORADA

"El CI-100 permite al personal proporcionar el efectivo de forma segura y con total flexibilidad, lo que contribuye a satisfacer las demandas de efectivo de los clientes en cualquier momento del día, todos los días de la semana."

EFICIENCIA OPERATIVA OPTIMIZADA

La tecnología de automatización de efectivo permite al hotel realizar los procesos de conciliación con máxima rapidez y sin errores, disponiendo de la trazabilidad del efectivo en todo momento, pudiendo así centrarse en la experiencia del cliente.

AUMENTO DE LA PRODUCTIVIDAD DE LOS EMPLEADOS

Lo más importante es que el cajero general no necesita seguir revisando las asignaciones de efectivo de cada cajero, para asegurarse de que todos tengan suficiente cambio. El equipo de operaciones dispone de más libertad, ya que no necesita preocuparse por las opciones de caja. Cada vez que comienzan el turno, disponen del fondo de caja completo.

"El eficaz sistema CI-100 de GLORY brinda máxima flexibilidad a los empleados del hotel, desde el Departamento Financiero hasta los puntos de venta, permitiendo ahorrar más de 3 horas al día en las tareas de procesamiento de efectivo."

Mara Quintana, Directora Financiera

GLORY

A GLORY CASHINFINITY™ Case Study

Challenge

Reduce the substantial time, effort and related costs that employees spend managing cash in each of their hotels.

Solution

GLORY's CASHINFINITY cash recycling solution reduces the burden and risk of back office cash processes.

Benefits

- Cashier cash handling time reduced from 40 minutes down to 8 minutes per day
- Finance Managers are now saving in excess of 2.5 hours per day
- ROI achieved in under 2 years

Staff time spent on back office tasks reduced by 22 hours per week

Marriott International, Europe

THE SOLUTION

To meet the varying needs across their portfolio of hotels, Marriott International selected GLORY's CASHINFINITY range of back office cash recycling solutions. CASHINFINITY offers the flexibility to choose the best solution for each hotel based on size and volume of cash received. Handling both notes and coins, the cash recyclers automate float dispense, end-of-day reconciliation and deposit preparation for CIT collections as well as detailed audit trails via the CI-server software.

The solution offered improved security with large denomination notes stored within the safe while allowing for lower denomination notes and coins to be recycled, reducing the number of CIT visits and associated costs. The CI-100B stores up to 3,500 notes and the CI-50B up to 2,400 respectively.

Both the CI-100 and CI-50 solutions also count, authenticate and recycle multiple currencies which was a further benefit to Marriott International given the global nature of their customer base.

To date more than 60 CI-100 note and coin cash recycling solutions have been installed across Marriott International hotels in the UK and Europe. Including the brands: Sheraton, Renaissance, Ritz Carlton, St Regis and The W.

THE BENEFITS

The CASHINFINITY solutions have had an immediate, measurable impact on efficiency within the Marriott International hotels releasing more time to focus on higher value activities such as the guest experience.

- Cashier cash handling time reduced from 40 minutes down to 8 minutes per day
- Finance Managers are now saving in excess of 2.5 hours per day
- Reduced CIT visits
- Significantly less time spent on rectifying cash discrepancies
- Intuitive user interface resulting in fast staff adoption
- Ease of implementation and rapid deployment has meant little interruption to the business
