Double-Check

AI-Powered Order Checking Solution

ACRELEC Double-Check harnesses the power of AI technology and the precision of a scale to ensure your customers get exactly what they ordered without adding friction to your processes.

Increase customer satisfaction and ensure order accuracy with Double-Check.

Improve accuracy and expand delivery capacities by verifying bag content in under a second. Utilising AI, ACRELEC Double-Check ensures your customers get exactly what they ordered without slowing down service speed. Directly integrates with top third-party delivery apps for instant feedback on customer disputes, creating immediate impact & ROI.

Key benefits

Robust, reliable hardware	Using industrial-grade components to guarantee product longevity, Double-Check is built for restaurant use.
Customer experience	Orders checked in under 1 second. 40% reduction of bagging mistakes. Reduces home delivery refunds by 48%.
Seamless integration	Smart technology makes Double-Check simple and easy to deploy, seamlessly integrated with food delivery apps for instant feedback on customer disputes, creating immediate impact & ROI.
Quick deployment, clear confirmation	Simple to install, the Double-Check system comes fully connected to the ACRELEC's ATP platform for efficient installation, simple ongoing management, and peace of mind for the restaurant.
Simplify staff experience	Give your staff a simple and quick way to check orders and avoid unnecessary conflict with customers

Options

Traceable reporting	Optional Business Intelligence portal for additional reporting. Each transaction is recorded, providing a breakdown of refunds claimed against the orders served — allowing for continuous service improvement or to challenge future refund requests for repeat offenders.
