## CI-100

Cash recycling system

reddot design award  
winner 2012

The CI-100 reduces the burden and risk of your back office cash processes. Automated processing of cash accelerates start and end of day processes as well as shift changes, reduces the risk of cash shrinkage, enhances the productivity of your staff and enables provisional credit where available.

UK Pound

As part of our CASHINFINITY™ solution, the CI-100 can be deployed standalone with manual cash drawers or as part of a secure closed cash management solution, accepting cassettes from Glory's CI-10 point of sale recyclers.
