CI-10X for the back office

Compact cash recycling system

Combining both a banknote and coin recycler, the CI-10X accelerates back office cash processes in locations where a compact cash automation solution is required. Delivering increased productivity and reducing the risk of cash shrinkage, CI-10X allows your staff to focus on higher value activities that improve customer experience and drive growth for your business.

As part of the CASHINFINITY™ solution, CI-10X offers an optimal balance between a footprint and cash recycling capacity, meeting the demands of small retail and gaming organisations.
