CI-Regi

CASHINFINITY™ Terminal Application
for Front Office devices

CI-Regi is a CASHINFINITY terminal application. Once installed on an Android tablet, the application can fully control and support CASHINFINITY front office devices (CI-5, CI-10X and CI-50) via the FCC. CI-Regi enables utilisation of all device functionality, without the need for a full POS integration.

CI-Regi is part of the software suite available for CASHINFINITY solutions. Once installed on an Android tablet, the application can fully control and support CASHINFINITY front office devices (CI-5, CI-10X and CI-50) via the FCC.

By using CI-Regi, further POS integration is no longer required. With a user-friendly screen design, full functionality support and security control, CI-Regi allows the benefits of CASHINFINITY devices to be instantly available. CI-Regi also can be used as a simple back office terminal which brings more flexibility to CASHINFINITY front office devices.

- Easily connect with CASHINFINITY devices without any POS development
- Use a register screen where POS integration has not been previously installed
- Pairing one device to one application provides an extra layer of security
