GDB-100

Banknote deposit solution

A scalable banknote deposit automation device with advanced authentication and sorting features. GDB-100 facilitates large quantities of banknotes to be deposited by business and personal customers. Deposits are processed quickly and efficiently, eliminating long queues in the branch, reducing cash processing costs and also enabling cash inventory to be reused elsewhere in the branch.

GDB-100 is quick and easy to integrate into the teller counter, self-service zone or within the back office.
