QC™

Consumer, self-service coin deposit solution

Offering your customers a faster, more convenient way to deposit coin reduces waiting times, improves teller productivity and enhances customer satisfaction. QC is an automated, self-service coin deposit solution. Your customers can quickly and easily deposit their coins without the need to pre-sort, wrap, sachet or wait in line for a teller.

Bag coin collection

QC is convenient and quick. A uniquely designed auto-feed system allows secure, continuous processing of coins and its two-button operation makes it intuitive and easy to use.

Coins can be poured straight into the coin hopper, while hands are kept well away from moving parts. Rogue objects, foreign currency and counterfeits will be automatically separated from the coin mix and rejected.

To assist branch personnel with machine management, QC includes easily viewed status lights located on either side of the front façade. Colour coded status lights alert branch staff to QC fill levels providing ample time to empty coin from QC ensuring the solution is always available for customer use.

All processed coins are sorted and collected into individual denomination bags. QC cabinet holds up to 12 bags, 6 bags are accessible on either side of the machine. Up to 6 denominations can be processed, sorted and stored, with up to 4 bags assigned to a given denomination.

Coin bags are ideal for banks wanting to recycle coin in branch or alternatively, transport bags of sorted coin to a cash deposit centre in standard quantities. Twelve bags can be configured to provide more capacity to higher volume coins within the coin mix so teller intervention is minimised and less time required to change the bags.

Speed	2500 mixed coins per minute
Coin diameter range	15.5 to 32.4 mm
Coin thickness range	1.0 to 3.0 mm
Coin authentication	Equipped with patented WAVE technology
Capacity	12 bags, up to 10,000 coins per bag, diameter dependant
Display	12" colour graphic LCD user screen
Sort capability	Fully sorted or mixed sort
Door façade options	Light or dark silver
Connectivity	Custom integration capability
Power supply	QC: 100 – 240V AC, 50/60 Hz + 1% Banner: 115 – 240V AC, 50/60 Hz + 1%
Power consumption	840W
Dimensions (H x W x D)	QC only: 1620* x 637 x 1045 mm *height increases to 2006 mm with banner Optional banner: 386 x 637 x 337 mm
Weight	QC only: 168.7 kg With banner: 180 kg Banner only: 11.25 kg
Manufacturing standards and approvals	CE, ISO9001, CUL, UKCA
