RCW-100

Compact cash recycling machine

Minimising the risk of cash shrinkage, theft and fraud is key to optimising the cash cycle. The Glory RCW-100 banknote recycling system controls cash in real-time and removes the need for manual coin handling which assures a highly secure and efficient solution.

Euro

A compact coin recycler that delivers efficiencies for cash withdrawal and deposits by recycling coins and managing excess into a secure overflow box.

The compact cash recycling machine RCW-100 is stylishly designed with straight lines. It can be easily integrated into self-service checkouts, vending machines and any self-service Kiosk requiring coin payment.

Intuitive user operation

A "FOLLOW ME" LED sign guides the customer to operate the machine independently and quickly, meaning minimal cashier intervention is required.

Rejection of suspect items

RCW-100 automatically rejects and removes suspect coins and foreign objects without stopping the recycler during a transaction. This reduces discrepancies and losses typically associated with manual coin handling.

Simple error recovery

If an error occurs, the linked POS screen can show a trouble-shooting animation to resolve the problem, resulting in maximum uptime.

Dimensions (W x D x H)	240 x 450 x 680mm 9.4" x 17.7" x 26.7" With Coin Overflow Tray (option): 240 x 483 x 820 – 850mm 9.4" x 19" x 32.3" – 33.5"
