

GLORY

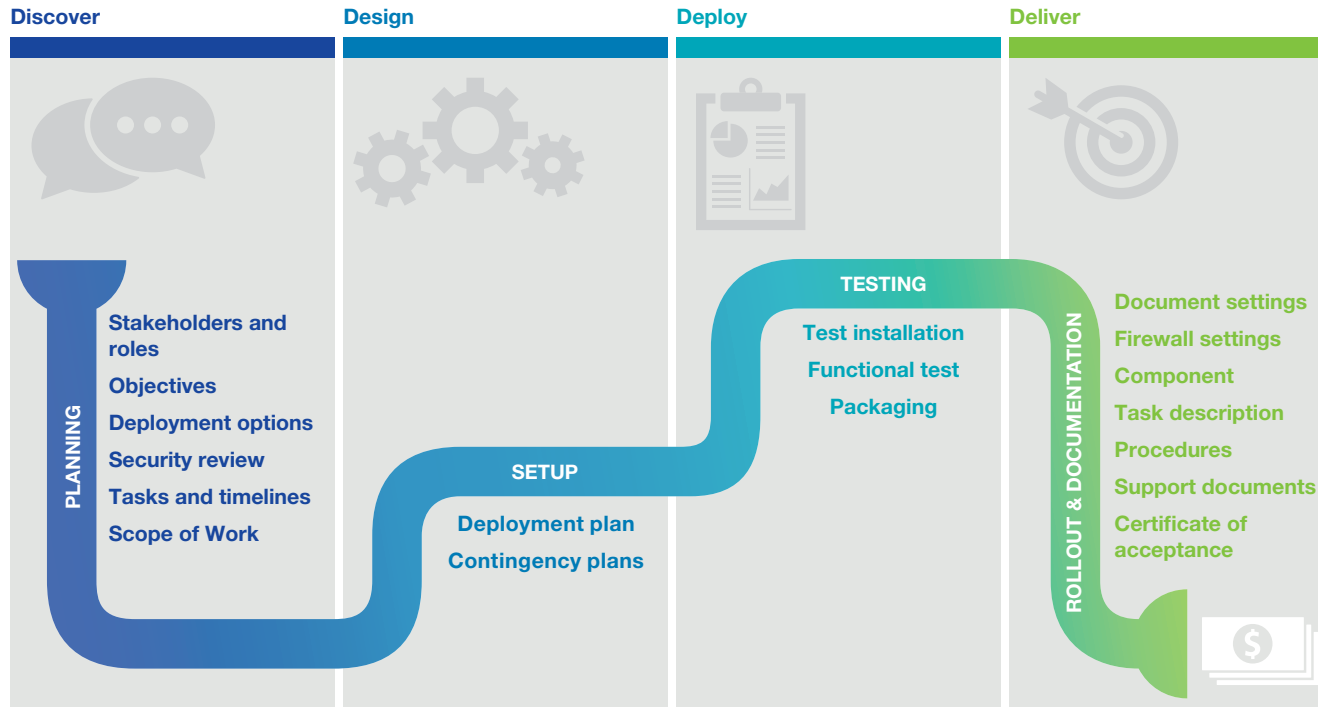

Technology – Software Solutions

Professional Services

Our Technology – Software Solutions team reviews each customer's technology environment in order to customise a solution that meets the commercial and technical goals of Financial Institutions. We lead our customers through a phased process to establish long term solutions that positively impact the value of cash automation.

Technology – Software Team

As the global industry leader in cash automation, Glory has developed four pillars of value enhancing professional services with the needs of our customers in mind. With these professional services, Glory can help your business quickly and efficiently achieve the full value of your cash automation initiatives.

Glory will meet your challenges and exceed expectations using our four pillar approach:

Project Management Services
Manage projects to achieve the desired goals of your organisation.

Advisory Services
Obtain the research analytics, best practices, technology strategies and more to ensure the best experience.

Technology – Software Solutions
Deploy software effectively to ensure that you maximise your technology investment.

Training
Train your employees with professionals to make the installation run smoothly and to get immediate post installation support.

Discover how your company can benefit from Glory Advisory services. Contact us at info@uk.glory-global.com or speak to your Glory sales representative.
