45 minutes

Glory customers have reported saving **20** hours per store* each week as a result of **deploying cash recycling** in their back office

Compact foot print
Can be installed even in the smallest retail stores.

Easy to use
Ideal solution as easy and versatile for both customer and staff operation.

Complete solution
Both note and coin recycling technology deployed into one device.

Improves productivity
Quick, automated acceptance of customer payments and change provision.

Improves hygiene
Improves hygiene in locations where cash and food are handled, enabling contactless cash payments.

Customer satisfaction
Reduced queues and waiting times at the counter.

Store efficiency
Cash transactions are automated, enabling staff to focus on added-value activities.

Streamlined back-office
Eradication of discrepancies and reduced time spent on end-of-day reconciliation.
