

GLORY

ELEVATE YOUR CASH MANAGEMENT with Glory Note Counters

Ensure confidence in your banknotes

Confidence in bank notes is important
to keep the economy functioning.

Glory's devices
can process

up to **60** different
currencies

all at the same time,
on the same device.

Futureproof your business

Keep ahead of evolving fraud
prevention techniques with Glory's
counterfeit detection suite.

The new King Charles III bank notes
will enter circulation in 2024, and
you'll need to ensure a seamless adoption.

Stay ahead of counterfeit threats

Fraudulent note attacks are getting more
sophisticated, and the capability of existing
devices will lag behind advanced fraud.

Bank of England is introducing their
silver standard for note authentication,
and Glory's solutions align with these
security standards.

Bank of England machine testing framework approved

Count cash with confidence
and safeguard your business
with **Glory Note Counters**

Be confident your business is fit for the future.
Discuss your cash acceptance strategy with us today!
