

CI-300

Cash recycling system

Combining both a banknote and coin recycler, the CI-300 accelerates back office cash processes in high volume cash locations. Delivering increased productivity for your staff and reducing the risk of cash shrinkage, the CI-300 allows your staff to focus on higher value activities that improve the customer experience and drive growth for your business.

As part of the CASHINFINITY™ solution, the CI-300 is a high speed, large capacity banknote and coin recycler that meets the demands of large retail and gaming organizations.

The CI-300 cash recycling system consists of a banknote recycler (CI-300B) and a coin recycler (CI-100C), offering improved security and reduced cash handling time in retail applications; during day-open, shift change and day-close operations. CI-300 offers the cashier a quick and easy solution for handling cash in the back office of a retail environment, allowing managers more time to focus on their core business.
