

CI-300BX / CI-10CX for the back office

Cash recycling system

The CI-300BX/CI-10CX combines a large capacity banknote recycler and a compact coin recycler into a solution that accelerates back-office cash processing in locations with high banknote and low coin volumes. Delivering increased productivity and security for your staff and reducing the risk of cash shrinkage, the CI-300BX / CI-10CX enables a multitude of flexible operational processes to be implemented, allowing staff to focus on other activities that improve customer experience and drive growth for your business.
