

GLORY

GLR-200 series

Teller Cash Recycler enabling efficient and flexible transactions

GLR-200 supports customer dispense and deposit transactions of any value or denomination, as well as foreign exchange. By automating cash handling at the teller position, this allows for more interaction between customers and staff which leads to a greater overall branch experience.

GLR-200 enables you to deliver a new branch experience to customers by increasing cash processing efficiency, with more time dedicated to conversations and interaction.

Self-Audit Capability

- Internal audit of the full device or individual RSM using the Intelligent Storage Module (ISM) allows for hands-free inventory verification with no cash exposure.

Speed and Volume

- Continuous deposit allows for large volumes of notes to be deposited quickly, at a speed of 8 notes per second.

Coin Detection

- GLR 200's coin detection system will immediately stop accepting notes and alert the operator if a coin is detected in the input pocket, safeguarding against potential damage to machine components.

Interactive Guidance

- 7" touchscreen provides animated self-guided recovery steps to the operator which will increase machine uptime.

Dimensions (W x D x H)	16.5" x 41.1(22.8)" x 33.3(26.4)" (Proportion under counter/desk) (Optional plinth adds 5.7" to height)
Safe	UL-291 24-hour (Level 1)
Weight	815.71 lbs
Storage capacity¹	Roll Storage Modules (RSM) 700 notes Count reject pocket 50 notes Total recycling capacity 7,000 notes
Speed/capacity	Deposit: 8 nps, 300 note capacity with continuous feed Dispense: 8 nps, 200 note capacity
Intelligent Storage Module (ISM)	700 note capacity
Lock	Several electronic locks available
Security	Heat, vibration, door sensors, duress dispense/silent alarm configurable
Power supply	Voltage: AC100 – 240V, 50/60Hz
Noise level	70 db
Operator interface	7" LCD Touchscreen with Interactive Guidance
Communication	LAN
