FZA Cheque Reader Sorter

MICR Cheque Reader Sorter

Glory is committed to tailoring the right solution for each customer, giving you complete confidence in the efficiency of your cheque handling process. Our intelligent MICR cheque reader sorter range incorporates the most up-to-date image-capture technology, utilising front/rear CCD cameras, a back endorser that enables any bitmap image to be printed, a large sorting capacity, as well as a high processing speed of up to 270 DPM.

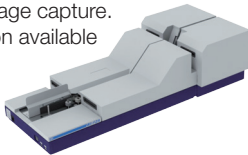

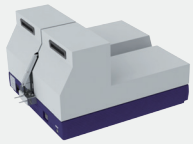

The combined functionality of the Glory MICR cheque reader sorter range, expands the possibilities of your cheque inward and outward application process.

FZA3166 / FZA3186 (MICR reader, endorser, image)	
Document feeder	Type / capacity: Auto Hopper / 500 documents (0.116mm documents)
