

GLORY

Professional Services

for Financial Institutions

Industry experts ensuring successful deployment of cash automation technology with a focus on your ROI.

Glory Professional Services provides industry leading expertise across a wide spectrum of offerings to drive customized technology deployments tailored to your business.

Glory puts its experienced Professional Services teams to work for you.

Glory's Professional Services leverages decades of combined experience in cash automation to ensure our clients optimize their cash automation technology deployments and maximize their ROI. We will help your organization improve performance through more effective people, processes, procedures and technology.

Our Professional Services team leverages a wide range of professional experience to drive improved cash automation deployments.

Glory offers a broad range of professional services designed to help financial institutions maximize their investment in cash automation technology. Our Professional Services team is comprised of Project Managers, Business Consultants, Technology - Software Consultants, and Customer Trainers each with up to 25 years of experience in their respective fields. The team's collective knowledge and hands-on experience is coupled with expertise across all facets of branch cash handling processes and procedures.

As the global industry leader in cash automation, Glory has developed four pillars of value enhancing professional services with the needs of our customers in mind. With these professional services, Glory can help your business quickly and efficiently achieve the full value of your cash automation initiatives.

Glory will meet your challenges and exceed expectations using our four pillar approach:

Project Management Services

Manage projects to achieve the desired goals of your organization. Glory Project Management Services can help your business reduce your project time line, save money from contracting costs and deploy Glory machines more efficiently through a tailored strategy and the precise expertise of an industry leader.

Advisory Services

Obtain the research analytics, best practices, technology strategies and more to ensure the best experience. Glory Advisory Services can deliver valuable peer benchmarking and gap analysis through our market leading customer experiences, perspectives and data driven customer engagements.

Technology - Software Solutions

Deploy software effectively to ensure that you maximize your technology investment. Glory Technology - Software Solutions Services review each customer's technology environment in order to customize a solution that meets the commercial and technical goals of Financial Institutions. We lead our customers through a phased process to establish long term solutions that positively impact the value of cash automation.

Training

Train your employees with professionals to make your equipment run smoothly and to maximize the benefit of all features. Glory Training Services can help your business get more out of its investment in cash automation technology by delivering best in class training offerings for your staff.
