

YOU COUNT WITH GLORY

JOANNE'S STORY

Name: Joanne

Current Role & Function: Sales Support in Purchasing and Shipping of Machines

Location: Singapore

When I joined Glory there were no more than 10 of us on the team, and I was the first employee brought in to manage administrative tasks. It was definitely challenging!

Over the years however I have created organised and efficient systems for all documents, inventory tracking and import and export movements. The advances in technology during my time with Glory have certainly aided me with this. My role also involved the planning and execution of Glory events, both internal and external. This has really helped to develop a strong relationship with all my colleagues.

Having demonstrated a continual positive attitude and enthusiasm at work, my role was broadened to include the coordination of regional events such as the annual regional distributor conference. I have also recently been given the opportunity to develop my direct sales skills- Glory really do allow individuals to achieve their potential.

During my 15 years with glory working with various members of the management team, I have always been supported and empowered to excel in my performance and development. Having joined with only 10 members in the team means I have a secure sense of belonging feeling of pride as I watch the company evolve and improve.

KEY ACHIEVEMENTS

The opportunity to visit our principle in Japan in 2011 was a great experience and enabled me to understand the products and company in much greater depth.

The transfer of all manual, hard copy inventory to an efficient electronic version which transform operations processes.
