Automated Back-Office Cash Handling Solutions

REVOLUTIONIZE YOUR BACK-OFFICE

In today's fast-paced retail environment, time is money – and nowhere is that more evident than in your store's back-office. Manual cash handling is not only time-consuming but also prone to errors, discrepancies, and security risks.

Glory's CI-X Series back-office solutions – CI-100X, CI-300X, and CI-500X – automate and optimize your cash processes, freeing up your staff to focus on delivering exceptional customer service.

CHALLENGES ASSOCIATED WITH MANUAL CASH AUTOMATION

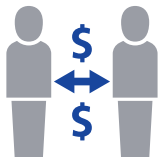

The back-office operations of your store are complex to manage and pose many operational challenges.

Manual preparation of daily change funds is time-consuming, expensive, and prone to errors.

Sales proceeds need to be rechecked when there's a miscount.

Manual cash handling processes require double checks when handed over from managers to cashiers.

End-of-day balancing processes mean staff cannot leave until cash is balanced.

Labor shortages lead to valuable staff time taken up with manual cash handling tasks.

Cost of losses from exposed cash can severely impact store profitability.

A visual check for counterfeit notes provides no track and trace data.

EFFICIENCY THROUGH **AUTOMATION**

Automating your back-office cash handling means:

- Eliminating manual cash counting
- Reducing time spent preparing change funds
- Speeding up end-of-day balancing
- Minimizing discrepancies and errors

With each cashier able to log in, dispense start funds, and deposit end-of-shift proceeds independently, your managers can focus on oversight—not manual tasks.

SECURITY AND PEACE OF MIND

Manual processes expose your business to risk and potential cash shrinkage. With CI-X solutions:

- Cash is secured and traceable at every step
- Counterfeit detection is automated
- Staff stress is reduced by removing the burden of cash discrepancies
- Closed-loop integration with CI-X front-office devices ensures touchless collection and replenishment

PROCESS IMPROVEMENT RESULTS FOUND IN CURRENT INSTALLATIONS

CASHIER	TIME	GLORY CI-100X	TIME
Float preparation	10 minutes	Float preparation	3 minutes
End-of-day tasks	30 minutes	End-of-day tasks	5 minutes

Cash tasks (Safe verification 3 × per day)	Total 45 minutes	Cash tasks (Safe verification 3 × per day)	6 minutes (2 mins to run verification report)
Manual end-of-day reconciliation	120 minutes	Automated end-of-day reconciliation	5 minutes

FINANCE TIMESAVING 155 MINUTES PER DAY

Source Based on internal findings of a hotel with 200 bedrooms with a cash intake of \$20,000 per day.

THE RIGHT CASH RECYCLER MODEL FOR EVERY STORE

“The speed and volume is huge. We love the CI-500X from Glory and our employees love it too. It’s a great piece of equipment. Our gaming and non-gaming wallet process is so much faster –and more reliable.”

WILLIAM CUPRAK,
REGIONAL CASINO CONTROLLER, HARRAH’S CHEROKEE CASINOS

CI-100X – STANDARD CAPACITY

- Recycles 4-8 note denominations and up to 8 coin denominations
- Interfaces with front-office collection cassettes

- Dispenses coin change directly to cups or till drawers
- Ideal for retailers with 1-10 point-of-sale locations – standard cash volume

CI-300X – LARGE CAPACITY

- Recycles 4-5 note denominations and up to 8 coin denominations
- Higher note and coin capacity for busier environments
- Closed-loop compatible with CI-X front-office devices
- Auto-verification and secure collection drawers
- Ideal for retailers with 10-25 point-of-sale locations – large cash volume

CI-500X – EXTRA-LARGE CAPACITY

- Recycles 5-6 note denominations and up to 8 coin denominations
- Maximum capacity for high-volume cash environments
- Ideal for large-format retail or high-cash turnover locations
- Advanced security and auto-verification features
- Ideal for retailers with 25+ point-of-sale locations – extra-large cash volume

VOLUME OF CASH (low to high)

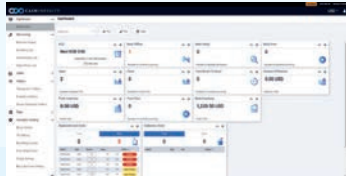

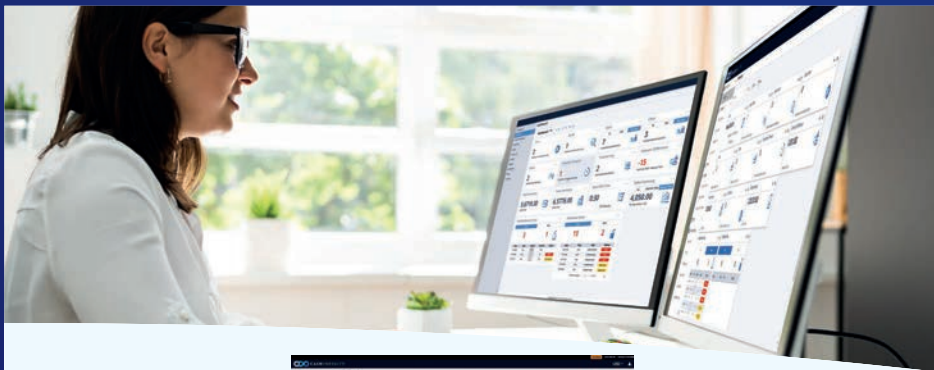

CONNECTED CASH MANAGEMENT

Enable enhanced decision making based on data driven insights.

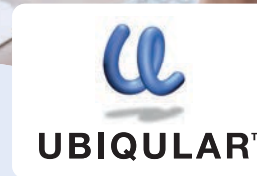

All CI-X models integrate with **CI-SERVERX** cash management software and **UBIQULAR™** managed digital services for automating the cash handling process:

- Real-time cash visibility and reporting
- Predictive maintenance and remote updates
- Enhanced CIT coordination and provisional credit
- Centralized device management

CI-SERVERX

As part of our CASHINFINITY™ solution, CI-SERVERX software provides real-time business intelligence, resulting in improved operational efficiency, profitability and customer service in the store. This web-based reporting tool provides customized dashboard layouts to show specific reports and data. Supports a wide range of user operations that allow your store managers to receive real-time device updates, status information and manage devices remotely.

UBIQULAR

Glory's UBIQULAR Cloud-Based Managed Services provide insight into your cash operation in and beyond the store, and ultimately to the point of bank credit. Glory can help you focus on your core business activities and relieve cashiers of cash related tasks, leaving time to concentrate on their primary role or serving customers.

WHY GLORY?

GLORY

As a global leader in cash automation, Glory supports some of the world's most recognized retail brands. Our solutions are designed to optimize your cash operations—improving efficiency, security, and profitability.
