

Glory Delivers Cash-Transaction Automation Centered on People and Performance

Point-of-Sale | Self-Service Kiosk | Back-Office | Software

“The Glory machine is a first for our company and I love it. It’s tremendous the amount of labor that was able to be cut out of the store, also the amount of human error. I would advise any store director to get one.”

– Kristi Tennill, Accounting Manager, Hy-Vee, Inc., Bloomington, Illinois

Glory cash-transaction automation solutions integrate with your operations to free your people from mundane tasks and to create secure, seamless, superior cash experiences for your customers. We work across retailers, food and beverage providers, gaming companies, and financial institutions.

Glory Solutions: Connecting Every Corner of Your Store

Glory's CI-X portfolio delivers closed-loop cash-transaction automation that connects your entire retail operation—from the point-of-sale to the back-office—with powerful software and self-service kiosks designed to optimize performance, reduce shrinkage, and elevate customer experience.

Point-of-Sale: Fast, Accurate, and Automated Checkout

- Automates cash acceptance and change dispensing.
- Speeds up transactions and reduces errors.
- Improves staff productivity and customer loyalty.

Back-Office: CI-X for Secure Cash Management

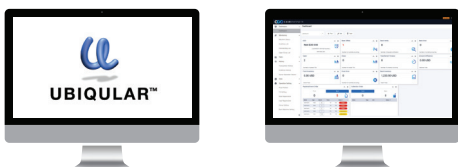

- Scalable note and coin recycling fits any back-office.
- Closed-loop integration reduces cash exposure and carrier costs.
- Cuts reconciliation time and labor; boosts security.

Self-Service Kiosks: Fast, Secure, and Cash-Ready

- Minimal staff involvement for quick, intuitive transactions.
- Supports self-checkout, note payment, and coin exchange.
- Expands payment options with automated cash acceptance.

Software: Real-Time Intelligence for Smarter Cash Operations

- Cloud-native platform for real-time cash data and device monitoring.
- Enterprise-wide visibility, analytics, and forecasting.
